17'15h-19'00h	Security Platform	Nutrition Session		
	Seminar Room	CPI Room I		
21'00	Dinner			

### Description of available Rooms:

- ▶ **Seminar Room:** Room with capacity of 40 people approximately in a seminar configuration, with projector and screen. Situated in the congress area of the building. AVAILABLE ALL THE TIME.
- ▶ **CPI Room I:** Room with capacity of 15-20 people with different possible configurations (mini-seminar, meeting...). Situated in the congress area of the building (besides the seminar room). AVAILABLE THE AFTERNOON OF TUESDAY AND WEDNESDAY
- ▶ **CPI Room II:** Room with capacity of 20-25 people with different possible configurations (mini-seminar, meeting...). Situated in the congress area of the building (besides the seminar room). AVAILABLE ALL THE TIME EXCEPT FOR THE AFTERNOON OF TUESDAY AND WEDNESDAY.
- ▶ **ITACA meeting Room:** Room with capacity of 20-25 people with different possible configurations (mini-seminar, meeting...). Situated in the ITACA Administrative area of the building (one floor under the congress area). AVAILABLE ALL THE TIME.
- ▶ **LSI Room:** Room with capacity of 10-12 people with meeting configurations. Situated in the ITACA laboratory area (in Sergio's Office) of the building. AVAILABLE MONDAY MORNING and if needed.

Our idea is to leave the congress rooms for presentation and meeting and the ITACA meeting room as an auxiliary room for internet connections or individual work (we can leave all the equipment there without problem).

### Other available material:

- ▶ Second Projector (already booked)
- ▶ Second Screen for projection (already booked)
- ▶ Flip Chart (if needed we have to book it and buy the paper, if somebody needs it, please let us know ASAP)

### Internet Connection:

The building has full coverage of WI-FI for Internet connection through the University VPN. We have several GUEST users and passwords for everybody. Wired connection will be much more complicated so it is not counselled. We will probably provide an auxiliary PC for anybody needing to connect and not having a WIFI enabled PC.
